Remote Full-Stack Developer

Profile

A simple passionate developer 🧑🏾.

I like to develop stuff and it's a real pleasure to have positive feedback from my clients as well as from my users (The Nirvana) ✨.

I greatly admire & respect those who also develop and do great things from a few lines of code 💛.

As for work, I am pragmatic, I like to learn from others and I always try to do better than before 🖥️.

I adapt very quickly to a new work environment and I am comfortable working in a team (I'm actually quite calm) 😊.

Professional experience

Lead developer / [Tech-Congo](#)
